*The American Naturalist* is published monthly by The University of Chicago Press, 5720 S. Woodlawn Avenue, Chicago, Illinois 60637. Manuscripts and editorial correspondence should be addressed to The Editor, *The American Naturalist*, Department of Biological Sciences, Stanford University, Stanford, California 94305. A page of advice to authors may be found in this issue. Copy editor: Teresa Carson; editorial assistant: Leanne Grega.

Subscription to the journal does not require membership in the American Society of Naturalists. Subscriptions to *The American Naturalist* may be ordered from, and remittance should be made payable to, *The American Naturalist*, The University of Chicago Press, Journals Division, P.O. Box 37005, Chicago, Illinois 60637. Subscription rates, U.S.A.: institutions, 1 year \$110.00; individuals, 1 year \$55.00; students, 1 year \$37.00 (letter from professor must accompany subscription). Other countries: add \$12.00 for each year's subscription to cover postage. Single-copy rates: institutions, \$9.25; individuals, \$4.75. Japanese subscription agent: Kinokuniya Company Ltd. Reprinted volumes 1–10 available from Walter J. Johnson, Inc., 355 Chestnut Street, Norwood, New Jersey 07648. Volumes available in microfilm from University Microfilms, 300 North Zeeb Road, Ann Arbor, Michigan 48106; in microfiche from Johnson Associates, P.O. Box 1017, Greenwich, Connecticut 06830.

For change of address, please notify the Press and local postmaster immediately, providing both the old and new addresses. Allow four weeks for change. Postmaster: send address changes to *The American Naturalist*, The University of Chicago Press, Journals Division, P.O. Box 37005, Chicago, Illinois 60637.

*Copying beyond fair use:* The code on the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made beyond those permitted by Sections 107 or 108 of the U.S. Copyright Law provided that copies are made only for personal or internal use, or for the personal or internal use of specific clients, and provided that the copier pay the stated per-copy fee through the Copyright Clearance Center, Inc., Operations Center, 27 Congress Street, Salem, Massachusetts 01970. To request permission for other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, kindly write to Permissions Department, The University of Chicago Press, 5801 S. Ellis Avenue, Chicago, Illinois 60637.

of the Biological Sciences*

Vol. 133, No. 1

## CONTENTS

January 1989

- The cost of tundra plant structures: evaluation of concepts and currencies. *F. Stuart Chapin III* ..... 1-19
- The interspecific size-density relationship among crowded plant stands and its implications for the  $-3/2$  power rule of self-thinning. *Donald E. Weller* ..... 20-41
- The distribution and abundance of resources encountered by a forager. *Hugh P. Possingham* ..... 42-60
- Intraspecific brood raiding, territoriality, and slavery in ants. *Gregory B. Pollock and Steven W. Rissing* ..... 61-70
- The ecology of Hawaiian flower-breeding drosophilids. 2. Adult dispersions and reproductive ecology. *Jeremy R. Montague* ..... 71-82
- Chromosomal influences on life-history variation along an altitudinal transect in *Drosophila robusta*. *William J. Etges* ..... 83-110
- Facultative placentotrophy and the evolution of squamate placentation: quality of eggs and neonates in *Virginia striatula*. *James R. Stewart* ..... 111-137
- The evolution of viviparity in amniote vertebrates: egg retention versus egg size reduction. *Robert L. Dunbrack and Malcolm A. Ramsay* ..... 138-148

## NOTES AND COMMENTS

- The evolution of dioecy from distyly: reevaluation of the hypothesis of the loss of long-tongued pollinators. *Gayle E. Muenchow and Marcella Grebus* ..... 149-156

## ANNOUNCEMENTS

### YOUNG INVESTIGATORS' PRIZES

The Young Investigators' Prizes recognize outstanding and promising work by investigators who have received their doctorate in the preceding three years or who are in their final year of graduate school. The prize committee requests applications for the 1989 prizes from anyone supporting the objectives of the Society. Applications should consist of a summary of the applicant's work of no more than three pages (excluding tables, figures, and references), a curriculum vitae, and a letter from someone who is familiar with the applicant's work (such as the applicant's dissertation adviser). Suggested names and addresses of people who should be encouraged to apply are also welcome. Applications and recommendations should be sent by March 31, 1989, to the Prize Committee, c/o Dr. Richard G. Harrison, Section of Ecology and Systematics, Cornell University, Ithaca, New York 14853-2701.

### CALL FOR EXPERIMENTS IN ECOLOGY

"Experiments in Ecology" is a project of the Ecological Society of America directed toward developing exemplary experiments in ecological science for use in upper elementary through college and university classes. Scientists and educators are urged to submit descriptions of successful experiments that demonstrate ecological principles. We welcome suggestions for all types of experiments, but we are particularly interested in those that (1) involve the manipulation or treatment of living organisms, (2) engage the students in the scientific method to answer a question or test a hypothesis, (3) can be implemented without a great deal of expense or technical equipment, (4) are of short duration (i.e., can be completed in one or a few 2-3-hour lab periods), or (5) can be used indoors.

The collection of exercises will be reviewed, edited, and assembled into a generally available manual. For further information and a questionnaire, contact Kathleen Peterson, Experiments in Ecology Project, College of Biological Sciences, 223 Snyder Hall, 1475 Gortner Avenue, St. Paul, Minnesota 55108.
